

Caroline Bellamy

Caroline Bellamy's new job title is Director, Chief Data & Artificial Intelligence Officer (CDAIO) Defence Data & Information Office, Defence AI Centre (DAIC), Digital Business Partnering and Digital Transformation- Deputy CIO.

Her role encompasses leading the transformation of data capabilities and driving the organisation's data strategy, positioning data as a crucial asset for enhancing decision-making and business efficiency across Defence.

Caroline has an extensive career spanning over 30 years in various sectors, including consultancy, retail, telecommunications, utilities, and geospatial data.

Before joining the MoD, she was significantly involved in establishing data practices at prominent companies, including a position with Vodafone Germany, where she served as Director of Business Intelligence, Central Analytics, and Big Data.

As the MoD's Chief Data Officer, Caroline plays a pivotal role in driving Defence's data strategy, fostering an environment where data is leveraged to transform operations and enhance efficacy across the military and civil divisions.

Caroline has spearheaded the development and implementation of the first Defence Data Strategy, which aims to make data a strategic asset while improving governance, data quality, and interoperability across Defence.
